

Skin & Body Care

Our treatments focus on relaxation, detoxification and rejuvenation. High quality herbal and aromatherapy products are used (organic whenever possible) and may also be purchased for home use. We invite you to relax and enjoy the therapeutic benefits of these ancient health promoting rituals. If you are pregnant or have any medical conditions or sensitivities, please inform your practitioner.

About Well Within

Well Within spa has been created to provide the community with a quiet sanctuary in which to relax and benefit from spas, saunas, therapeutic massage, facials and body care.

All of the services at Well Within are designed to relax and rejuvenate the body and soul. Our environment can best be described as “Japanese traditions blended with California lifestyle.” A beautiful garden view and the sound of trickling water are always nearby. We enhance your experience with professional, friendly service in a serene environment.

Located in the heart of Santa Cruz since 1985, Well Within is a community and a lifestyle choice. Our staff invites you to relax and replenish your Well Within.

The Spas

Soaking in hot water has been a time-honored tradition for relieving the stress and strain in our lives. Our indoor spa rooms provide the perfect environment for that purpose. Each room overlooks a traditional Japanese garden with waterfall and koi pond and includes a spa, a shower and changing area. Cedar-lined saunas are an option with your spa. Soothing music, towels and our herbal tea complete the experience.

簡素

Private outdoor enclosures, featuring spas on a deck open to the sky, saunas and indoor shower and changing areas, are ideal for couples or small group use. Group rates are available. All spas are provided on a 50-minute basis.

State of the art filtration systems utilizing bromine ensure crystal clear water kept at 104°. Chlorine is never used.

Combine a spa room with a massage or body care treatment for the ultimate Well Within experience.

Hot baths and saunas are not recommended for pregnant women or for persons with high blood pressure or heart conditions. If you have these or any other medical conditions, please consult your physician before using our spas. We do not recommend using our spas unaccompanied. We also require everyone entering the spa to sign a waiver acknowledging the risks involved in using our facilities.
